SUMMARY

Over the last 06 years I have been working with latest web technologies as a fullstack and mobile apps developer.

I have worked with JavaScript, React, React Native, HTML5, CSS 3, Gulp, SCSS for frontend development.

In backend development I have practical experience with Node, PHP, Python, Java, Laravel, Yii2, MySQL, MongoDB, Sphinx, Elastic Search, GCP, AWS, Firebase.

I have expertise of working with Docker, Linux systems, Jenkins, Jira, Redmine, IoT, Data mining, Scrum and Kanban.

I am open minded, friendly, communicative, I like to play badminton, swimming, and table tennis in free time.

EXPERIENCE

SoftHem Sweden, Stockholm — *IT Consultant*

❖ SEPTEMBER 2018 - PRESENT

- Developed React and React native mobile apps for video streaming
- Worked with docker containers and linux command line.
- Developed Node, PHP, Laravel, Mongo, Python based backend applications
- Developed the energy calculator for solar panels using React, JS.
- Developed and optimized the client website using HTML5, CSS, JS, SASS.
- PHP API development, Wordpress site optimization.

Flax Innovation AB, Stockholm — *React Developer*

❖ MAY 2018 - SEPTEMBER 2018

- Developed a sports and betting web application using React.
- Developed mobile app triggySport in React Native.
- Integration of online sports API
- Integration of online betting API

Flygresor AB, Stockholm — *Web Developer*

❖ NOVEMBER 2015 - MARCH 2017
- Worked as a backend developer on the core site flygresor.se.
- Worked Facebook API integrations and MySQL Database.
- Worked on deployments in Linux environment
- Worked on facebook integrated advertisement application

TriSoft AB, Stockholm — *IT Consultant*

❖ DECEMBER 2013 - OCTOBER 2015
- PHP, Laravel, Yii, React, Full stack developer.
- Working on eCommerce solutions.
- APIs development and integration.
- Linux Server Administration.
- Database servers/LAMP administration.
- Social networking sites in PHP 5, BS 3.
- Developed several modules for egranner.se

Ericsson AB, Kista, Stockholm — *PHP Web Developer*

❖ MAY 2013 - SEPTEMBER 2013 - Summer job
- Used PHP OOP, Yii-framework, MySQL, JS, jQuery, CSS 3, Git, E Forge for internal web application for Subjective testing
- I developed a Multimedia codecs testing system for subjective testing
- Several levels of constraints and validation has been implemented

Allabranscher AB, Stockholm — *PHP Web Developer*

❖ DECEMBER 2012 - APRIL 2013
- PHP OOP, Yii MVC framework Development and implementing new features.
- Sphinx Search Engine for indexing MySQL Databases, HG.
- Configuring Ubuntu server, Firewall, Squid Server, PowerDNS, DHCP, FTP Servers.
- Monitor servers for performance and capacity planning
- Technology: Wordpress Framework (3.2.1) / PHP 5.2, CI, Joomla, Magento, Mysql :5+, jquery 1.3+, CSS

Higher Education Commission, Pakistan — *Software Developer / Administrator*

❖ SEPTEMBER 2007 - AUGUST 2009
- Linux And Windows servers administration
- Network Support and Configurations
- Software updates, installations and configurations
- Software Development in JS, for universities information system
- Data center Windows Server Administration

National Database & Registration, Pakistan — *Team Lead*

❖ APRIL 2005 - SEPTEMBER 2007
- Implementing new site centers
- Installation of new software
- Database administration, backup, scripting
- System and Server Administration ML360 Raid 5
- Customers care and support, Team lead, training
- I worked in the technical support team (TST) at headquarters
- I installed configured, troubleshooted imaging, biometric devices
- I launched & successfully completed the CBRC (child birth registration certificate) at Islamabad Region
- I installed & configured all the hardware, software of NSRCs, MRVs[offices]
- I wrote manuals, tutorials and trained the staff at the local offices (union councils)

EDUCATION

KTH Royal Institute of technology, Sweden — *Master*

❖ SEPTEMBER 2019 - STOCKHOLM
- Advanced requirements engineering
- Data mining
- Internet of things
- Projects Management & Organization
- Sustainable projects in multidisciplinary context

Blekinge Institute of Technology (BTH), Sweden — *Master*

❖ SEPTEMBER 2009 - MAY 2012, KARLSKRONA
- Studied courses in Computer Science focusing on programming, software engineering, and software security.
- I worked on thesis in the area of Internet of Things (IoT), 'A performance evaluation of RPL in Contiki' at Swedish Institute of Computer Science, Kista.

University of Peshawar, Pakistan — *Bachelor*

❖ JANUARY 1999 - MAY 2003, PESHAWAR
- Studied courses in Mathematics, Statistics, Systems Analysis, Artificial intelligence, Programming languages, Data structures and algorithms etc.
- I did my thesis on Automation of Library information and Examination systems using tools like VB 6.0, MS Sql Server.

SKILLS

- JS, JQuery, NodeJS, React, React Native, Angular, Backbone, Underscore, Ejs, BS 3, CSS, Gulp, SCSS, HTML5, Bootstrap 3, Flex.
- PHP, OOP, Yii, Laravel, Alip, Drupal, Magento, WordPress, Symfony, PHPUnit.
- MySQL, MongoDB, Mocha, Chai, Node JS, Express, Hapi.
- Jenkins, CI/CD, Docker, Firebase, AWS.
- Sphinx, RESTFul, Elastic Search, Facebook Apps, Google Analytics, Adwords, Composer, Git and more web technologies.

EXPERTISE

JavaScript, React, React Native, Node JS, Express -------------------------- **08/10**

PHP, Laravel, Yii 2, Python --- **07/10**

Java, AWS, Firebase, GCP -- **07/10**

Languages: Swedish, English, Urdu/Hindi/Punjabi/Pashto*, Arabic

AWARDS

1. Position holder in Masters of Computer Science
2. Position holder in Bachelors of Computer Science
3. Winner of Badminton inter university games
4. Top 10% in JavaScript - Upwork
5. Top 10% in PHP - Upwork
6. Several distinctions for different institutes
7. I am CCNA, CCNP, MCSE, CVOIP, and Redhat Linux certified [2007]
